DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-5 and 11-32, drawn to an apparatus of a microelectromechanical temperature control system, classified in class 372, subclass 36.
 - II. Claims 6-10, drawn to a method for controlling temperature, classified in class372, subclass 34.

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product. See MPEP § 806.05(h). In the instant case the Invention II which recites a method for controlling temperature can also be practiced with another materially different product which does not require a magentic MEMs heatsink.
